# MISSION VISION

## CHEMONT SOLUTIONS

is a company with over **75 years** of experience in the field of construction of equipment dedicated to the chemical, petrochemical and energy industries as well as steel structures.

### CHEMONT SOLUTIONS MISSION IS:

focusing on the development of investors by providing modern technological solutions.

### CHEMONT SOLUTIONS VISION IS:

providing our Partners with optimal solutions in the construction of process equipment for the chemical, petrochemical and energy industries.

# OWNERSHIP STRUCTURE

In December 2024, Chemont Solutions was incorporated into the ownership structure of KONKO S.A.

**KONKO S.A.** boasts 30 years of experience in creating prefabricated steel structure projects. The company is located in Myslowice. As an OEM, it provides comprehensive and high-quality solutions for end users but also implements its own proprietary projects. Our products are used in the mining, construction, energy and road construction industries.

## KONKO S.A. offers

COMPLETE HYDRAULIC POWERED SUPPORT UNITS • BEAM STAGE LOADERS AND ARMORED FACE CONVEYORS • COMPONENTS OF TRANSPORT SYSTEMS • BELT CONVEYORS AND SPARE PARTS • REPAIR OF FLEXIBLE MINING CABLES • STEEL STRUCTURES OF MACHINERY AND EQUIPMENT • METALWORKING SERVICES: CUTTING, BEVELING, BENDING, WELDING, MACHINING • 3D SCANNING

# TRAINING AND EXAMS FOR WELDERS

**Chemont Solutions** operates in the field of specialized welding services within the competence of the European Welding Engineer, organizing training and exams for welders in accordance with the PN-EN 9606-1:2017-10 standard.

## We use the following welding techniques:

- in an argon shield with a non-consumable TIG electrode,
- coated electrode,
- in the shield of MIG/MAG gas mixtures with solid wire and powder,
- covered arch,
- oxy-acetylene,
- powder spraying using the ROTO-TECH method,
- plasma cutting of carbon and acid resistant steels (up to 100mm),
- automatic welding of tubes in tube bottoms of heat exchangers.

## These techniques allow the following groups of materials to be welded:

- carbon steels,
- low-alloy steels,
- stainless steels,
- aluminum alloys,
- copper alloys,
- titanium alloys.
